

PowerOne™ Business Solutions

Long Distance To Keep Your Company Connected and Communicating

Because your telecommunications services link your business to the world, you need dependable service. PowerNet Global keeps your business connected and offers aggressive long distance rates that deliver bottom-line results.

What are normal business hours? For most companies that means daytime. And when do most long distance carriers charge the highest rates for long distance service? Daytime! But with PowerOne™ Long Distance service, it doesn't matter what time of day your business completes long distance dialing. You always get the lowest rates, regardless of when you place your calls.

You pay one flat rate per minute for your domestic state-to-state long distance and receive great savings on intrastate and international calls. Period! PowerNet Global saves your business money on every call.
